

Amendments to the Drawings:

Please add the attached new drawing sheet for FIG. 6, which was previously embedded in the body of the specification on page 25, but which has been deleted from the specification by this amendment.

REMARKS

Applicant would like to thank Examiner Chen for the courtesies extended to Applicant's undersigned representative during telephone calls on July 1 and 2, 2008.

The need for the amendments to the Specification and drawings was discovered by the USPTO after payment of the issue fee, but before issuance of the patent. Accordingly, Applicant is submitting this Amendment to delete Figure 6 and its associated legend from the bottom of page 25 and to add FIG. 6 as a proper figure in the Drawings. Since Figure 6 is properly already listed in the Brief Description of the Drawings and referenced on page 25, line 12 of the originally filed specification, no new matter is being added to the application. Furthermore, as the need for this Amendment was not discovered until after payment of the issue fee, the Amendment could not have been made earlier. MPEP § 714.16.

Entry of this Amendment under the provisions of Rule 312 is believed to be appropriate, and is respectfully requested. Applicants respectfully request that this application be passed to issue.

The Commissioner is hereby authorized to charge to Deposit Account No. 50-1165 (T2211-8758US01) any fees under 37 C.F.R. §§ 1.16 and 1.17 that may be required by this paper and to credit any overpayment to that Account. If any extension of time is required in connection with the filing of this paper and has not been separately requested, such extension is hereby requested.

Respectfully submitted,

MILES & STOCKBRIDGE, P.C.
